

For nearly 30 years, Jet Support Services, Inc. (JSSI), has been the leading independent provider of maintenance programs to the business aviation industry. We cover virtually all makes of business aircraft, engines and auxiliary power units (APUs).

We offer the most comprehensive, flexible and affordable financial programs and tools available to manage the often unpredictable costs of operating and maintaining nearly all types of turbine-powered aircraft. From business and commercial jets to turboprops and helicopters, we have your complete maintenance needs covered.

## PROVIDING SUPERIOR PROGRAMS AND SERVICE

### TRANSFERABILITY

Transfer your maintenance reserves to virtually any aircraft, regardless of make or model. No other hourly cost maintenance program gives you this advantage.

### GLOBAL SUPPORT

Guaranteed 24/7 access to a dedicated client support team and over 70 experienced technical advisors, who manage more than 8,000 maintenance events each year.

### BUYING POWER

With over 4,000 engines enrolled on JSSI programs, when you enroll you become a part of the fleet and instantly realize the financial benefits of this global buying power.

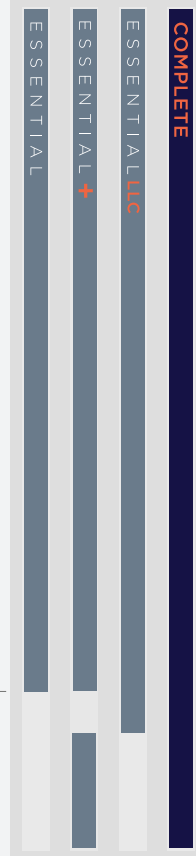

## THE JSSI PROGRAMS

JSSI is the only single-source provider to offer Tip-to-Tail® protection for your aircraft. We cover airframes, avionics, engines, APUs, and even mission-specific equipment, regardless of your chosen manufacturer for each. A JSSI program stabilizes your maintenance operating budget, protects you from unscheduled costs, and maximizes the value of your aircraft.

JSSI works for you and acts as your independent advocate with the OEM. A global network of certified technical advisors is always available to support your assets, with 24/7 assistance wherever you may fly.
